To Whom It May Concern:

I have had the pleasure of working with 180 Consulting for one year and enthusiastically recommend that you consider utilizing their services. This firm is unique to many other lobbying firms in that they offer not only the lobbying services but also media consulting as well. Whether you are a high-profile, large corporation like Insight or a small sole-proprietor, it is essential that you have a well-rounded and polished firm like 180 to represent your interests in Tallahassee. 180 will give you the "inside track" on valuable information that you cannot duplicate through another firm.

If you would have any specific questions on my experience with 180, please do not hesitate to contact me directly.

Sincerely,

Lorne Shackelford
Director of Sales
Insight Public Sector
