

Keefe Commissary Network

AN AFFILIATE OF KEEFE SUPPLY COMPANY

To Whom It May Concern:

Our company, which operates in thirty-eighty states throughout the nation, engaged One Eighty Consulting on a very targeted near-crisis situation to help us manage the Florida Legislature and also work with the Department of Corrections where we had recently won a multi-million dollar award.

What made this firm special was that it not only worked well with the legislative branch, but it understood and knew how to work the executive branch, as well. Our experience with One Eighty could not have been better. Every objective set out at the beginning of our relationship was accomplished, done so in a very timely manner and allowed us to continue our contract without any interruption.

One Eighty was recommended to us by several high ranking state employees and their recommendations proved to be perfect for our needs. I, too, would recommend One Eighty Consulting without hesitation for work within state government agencies in Florida.

Sincerely,

Tyler P. Alcorn
Vice President/General Manager
